

Tammy Chan

Senior Technical Program Manager

(669) 220-8607 | tammychanps@gmail.com | San Jose, CA | [linkedin.com/in/tammypschan](https://www.linkedin.com/in/tammypschan)

SUMMARY

- Program management leader with **10+ years** delivering **\$3M-\$10M annual technology programs** in regulated global banking across Asia and Europe, leading teams of 6-10 direct reports and 20-30 cross-functional members. US Permanent Resident.
- Built SQL-based dashboards to drive roadmap reprioritization, reducing **incident volume by 25% in 3 months** and enabling digital transformation and risk mitigation across engineering, compliance, and executive teams.
- Tripled release cadence from **30+ to 100+ per month** while reducing incidents by **30%** through a DevSecOps transformation - recognized as **Outstanding Service Owner 2021** across 300+ staff.

LEADERSHIP & IMPACT

\$3M-\$10M Annual budgets	30% Incident reduction	30+ → 100+ Releases (3x)
60% Access misuse cut	2M+ Customers served	\$10B+ Assets supported

WORK EXPERIENCE

Independent Consulting & AI Upskilling, San Jose, CA

AI-Native Project Delivery & Automation

Jan 2026 - Present

- Built a Change Risk Scoring Engine and Program Status Report Generator using Claude Code, LangChain & Python to automate CAB risk assessments and executive reporting from requirements gathering through deployment.

Career Break — Relocation from London to San Jose

Mar 2024 - Dec 2025

HSBC Holdings plc, London, United Kingdom

Senior Technical Delivery Manager (Program Management)

Mar 2023 - Feb 2024

Platform initiatives across Europe, Asia & Australia within a \$3T global financial institution, serving institutional clients & retail customers.

- **Platform Delivery:** Accelerated enhancements for a **2M+ customer Open Banking API platform** by aligning 3 engineering squads with compliance and operations, meeting **PSD2 regulatory deadlines** across 3 regions.
- **Crisis Recovery:** Recovered an off-track project inherited with 2 weeks' notice: rallied teams across **Hong Kong, India, and UK**, compressed a 3-week deadline, and delivered with **zero incidents** - approach adopted as department standard.
- **Data-Driven Prioritization:** Queried backend logs (SQL) to uncover low-adoption features consuming engineering effort - enabled the team to redirect resources toward higher-impact regulatory deliverables.
- **Executive Reporting:** Delivered structured risk and dependency reports to **senior leadership** via Confluence/JIRA, enabling faster stakeholder alignment and informed go/no-go decisions.

HSBC Holdings plc, Hong Kong SAR, China

Senior Development Project Manager / Specialist

Apr 2013 - Mar 2023

Cross-functional programs spanning software development, IT security, and operations for platforms supporting USD \$10B+ in institutional assets, serving commercial banking and internal operations across APAC and EMEA.

- **DevSecOps Transformation:** Drove Agile transformation that **tripled monthly release velocity** while reducing incidents by 30% through automated regression testing, pre-release checklists, and streamlined CI/CD workflows.
- **Budget & Roadmap:** Managed **\$3M-\$10M annual program budgets**, defined multi-year roadmaps, and optimized **resource allocation** and stakeholder management across product, engineering, and compliance teams.
- **Security & Access:** Built automated detection scripts (Python) and access expiration triggers that cut **privileged access misuse by 60%** - framework adopted as global standard.
- **Vendor Recovery:** Recovered a **3-week vendor delivery delay** by restructuring communication protocols, enforcing SLAs, and conducting joint alignment meetings.
- **Risk & Compliance:** Led IT risk and compliance initiatives including audits, risk assessments, and regulatory due diligence - recognized as **1st runner-up for IT Risk Manager Award 2020**.

HSBC Holdings plc, Hong Kong SAR, China

Senior Development Officer

May 2008 - Mar 2013

- **Platform Modernization:** Modernized a J2EE onboarding platform for **1M+ members** to meet regulatory mandates; built automated testing infrastructure.

Exelixis Inc., Alameda, CA

Application Developer II

Dec 2006 - Mar 2008

- **High-Throughput Systems:** Re-engineered a drug screening system processing **4M+ compound data sets**; developed workflow automation for pre-clinical testing.

TECHNICAL SKILLS

AI & Automation: Generative AI, Prompt Engineering, Claude Code, Gemini, ChatGPT, NotebookLM, AI Agents, LangChain, Ollama, RAG

Platforms & DevOps: Jenkins, Jira, Confluence, GitHub, Ansible, Selenium, JMeter, Docker, Kubernetes, Terraform, CI/CD, SDLC

Cloud & Infrastructure: Amazon Web Services (AWS), Microsoft Azure, Google Cloud Platform (GCP), Linux, ServiceNow

Programming: Java, Python, SQL, Spring Boot, Node.js, REST APIs, JSON/YAML, Microservices

Security & Risk: ServiceNow, Archer GRC, Wiz, Palo Alto Prisma Cloud, SonarQube, Checkmarx, SIEM, DevSecOps, SOX, ISO 27001

PM Methodologies: Agile, Scrum, SAFe, Kanban, Waterfall, ITIL, PRINCE2, Risk Mitigation

PM Disciplines: Scope Management, Schedule Management, Stakeholder Management, Governance, Executive Reporting, Digital Transformation

Languages: English (fluent), Mandarin (native), Cantonese (native)

EDUCATION & AWARDS

M.S. Computer Science (Life Sciences) - San Francisco State University, CA

B.S. Computer Science - The Chinese University of Hong Kong

Outstanding Service Owner 2021 - Recognized across 300+ staff for tripling release cadence

IT Risk Manager Award 2020 - 1st runner-up for leading IT security and compliance initiatives
